Open Department Placement at Faculty Library (Faculty of Social Studies, Faculty of Science, Faculty of Arts)
Activities Masaryk University has the most advanced university library system in the Czech Republic. All faculty libraries are fully integrated into a university-wide web coordinated by the Library Information Centre, which focuses on the development of an automated library information service and the testing of modern technologies for use in the system. Both the library of the Faculty of Social Studies and the library of the faculty of Science are housed in new premises opened in 2005; they boast advanced facilities and are trying to introduce the most modern library practices.

Open Department Placement at the Office for International Studies

Activities Office for international studies administers all international programmes at Masaryk university in Brno. It also created a database of study opportunities abroad. A part of the OIS is formed by an Academic Information Service which provides students and teachers with information about study opportunities outside the possibilities offered by the centrally administered programmes. OIS founded an International students club which organises activities for international students at MU with help of Czech students. OIS initiated a process of internationalization of MU by creating a committee for internationalization of MU. A result of this was an official strategy for internationalization approved by the university management.
