Valladolid University

Zaragoza University

➤ **Balanced: receive 1-send 0**

Alacant University

Jaume I University, Castelló

Lleida University

➤ **Balanced: receive 0-send 1**

Cadiz University

Malaga University

SUMMARY OF MOBILITIES

According to the guidelines, the match of offers & candidates and awarding of grants were done following the three main criteria:

1º Preference given to the applicants by the home coordinator (according to the priorities of his/her university)

2º Equivalence between home y host departments,

3º Preference of the candidate

-1st round with a result of 25 mobilities of first candidates. All first candidates were selected, except:

-Coruña University: Its 1st candidate was not selected because two of his three options were at Spanish Universities; the third one was given to another 1st candidate (Cadiz University) who had only selected that offer as destination.

-Jaume I University: Similar case than Coruña University

-Valladolid University: Its 1st candidate was not selected because he had only selected one offer which was given to another 1st candidate (Technical of Madrid). The reallocation was not possible because the other two offers of the candidate at Technical U. of Madrid had already been given to other two first candidates of other universities.

-Girona University: It has only one candidate and she has selected three Spanish offers.

-2nd round with a result of 12 mobilities of second candidates and 4 mobilities of third candidates.

Third candidates were selected to get a balance between candidates received & candidates sent at universities as well as to get that universities which do not receive any candidate can receive at least one.
